By WHITEWALL

Last night, **Lehmann Maupin** Gallery, *W* Magazine, and **John Hardy** held a cocktail at the **New World Symphony** celebrating **Teresita Fernandez's** appointment to the **U.S. Commission of Fine Arts**. The commission is a panel appointed by President Barack Obama that advises the president, congress, and governmental agencies on national design and aesthetics. It's a four year position that looks at the design of a range of governmental programs - from coins to national museums.

This week in Miami, Fernandez's work can be seen at ABMB at Lehmann Maupin's booth and at MOCA North Miami. At MOCA is her work *Pivot Points V*, which appeared in the museum's inaugural exhibition in 1996. Stay tuned to [Whitewallmag.com](http://Whitewallmag.com) for a video interview with Fernandez later in the week where she talks about her recent appointment and seeing *Pivot Points V* 15 years later.
